LOCATION

The penthouse is located in an architecturally outstanding residential complex in the middle of the 19th district and combines living in absolutely green surroundings with the advantages of very good transport connections to the city centre. It extends over three floors with large, tastefully designed terraces with pool and whirlpool, all of which are directly accessible by lift.

ROOM LAYOUT

The main level is located on the first attic floor and comprises around 190 m2 of interior space including 150 m2 of surrounding terrace areas. The entrance, the living-dining area with open kitchen and a study are located in one wing. From each of the rooms there is direct access to the terrace areas, which are connected to each other all around. In the other wing there are 2 bedrooms, 2 bathrooms and a spacious walk-in wardrobe.

The floor below with about 50 m2 is accessible via an internal staircase or the penthouse lift. It serves as a guest or children's area and consists of a bedroom, a large bathroom, spacious wardrobes and a utility room.

On the second floor is the skybox, which is also accessible via the penthouse lift. Next to the fitness area, an office or reading corner with a magnificent view has been set up. To the left and right of the skybox is a roof terrace of around 75m2 each. On one side of the terrace, the sunbathing/resting area and refreshment pool invite you to take a dip, while on the other side, in the middle of the rose garden, there is a large whirlpool with a beautiful view.

There are three parking spaces in the building's own underground garage, as well as a storage room and an approx. 45 m2 hobby room on the same level.

The luxurious penthouse offers living with the highest level of comfort. Due to the elaborate planting, it is almost hidden from view, but still offers beautiful distant views including spectacular sunrises and sunsets.
